AFRICAN CULTURE & GENDER AWARENESS ABSTRACTS

Ngei David Mumo | BSc Information Technology | IGS 4202 Capstone Project

1. English Abstract: Communal Resilience, Gender Equity, and Technological Transformation in Ukambani

Traditional African societies, particularly within the Akamba community of Kitui County, have historically relied on communal labor frameworks (such as Mwethya), shared agricultural responsibility, and intergenerational mentorship to survive harsh environmental cycles of drought and abundance. However, traditional gender paradigms often placed disproportionate domestic burdens—such as water fetching and subsistence farming—on women and youth while limiting equitable access to formal STEM education. Drawing from lived experiences in rural Kitui, this study examines how indigenous values of collective problem-solving, discipline, and mutual support can be harmonized with modern gender-inclusive education. By empowering both young men and women to participate equally in computer science, data science, and engineering, African communities can preserve their cultural ethos of unity while driving inclusive digital transformation.

2. Kiswahili Abstract: Ustahimilivu wa Kijamii, Usawa wa Kijinsia, na Mageuzi ya Kiteknolojia Ukambani

Jamii za asili za Kiafrika, hususan jamii ya Wakamba katika Kaunti ya Kitui, zimekuwa zikitegemea mifumo ya kazi za pamoja (kama vile Mwethya), uwajibikaji wa pamoja katika kilimo, na malezi ya kijamii ili kukabiliana na misimu migumu ya kiangazi na neema. Hata hivyo, mitazamo ya kitamaduni ya kijinsia mara nyingi iliwatwika wanawake na vijana mzigo mkubwa wa kazi za nyumbani kama vile kuteka maji umbali mrefu, huku ikipunguza fursa sawa katika elimu ya sayansi na teknolojia (STEM). Kulingana na uzoefu wa maisha vijijini Kitui, utafiti huu unachunguza jinsi maadili ya asili ya ushirikiano, nidhamu, na kusaidiana yanavyoweza kuunganishwa na elimu jumuishi ya jinsia. Kwa kuwapa vijana wa kike na wa kiume fursa sawa katika sayansi ya kompyuta, jamii za Kiafrika zinaweza kulinda utamaduni wao wa umoja huku zikiendesha maendeleo ya kidijitali.

3. Indigenous (Kikamba) Abstract: Wīkwatyo wa Kīkundi, Ũigananĩo wa Aũme na Aka, na Tekinolojia Ukambani

Mbaĩ sya Kĩavĩlika, mũno mũno mbaĩ ya Akamba nthĩnĩ wa Kaunti ya Kitui, kuma tene nĩsyĩkwatasya wĩra wa kĩkundi (ta Mwethya), kũtetheanĩsya ũĩminĩ, na kũmanyĩsya syana mwĩkalĩle mũseo nĩ kenda momĩĩsye mavinda ma мũnyao na ma mbua. O na vailye ũu, syĩthĩo sya tene mavinda angĩ nĩsyaĩkĩaa aka na syana mũio mũito wa mawĩra ma mũsyĩ ta kũtava kĩw'ũ kũasa, na kũolanga mwanya wa aka kwĩmanyĩsya maũndũ ma sayansi na tekinolojia (STEM). Kũtĩla maũndũ ala nĩyoneie ndũanĩ ya Kitui, ũvoo ũũ wĩthuthungĩa ũndũ syĩthĩo nzeo sya wĩw'ano, kĩthito, na kũtetheanĩsya itonya kũkwatanĩw'a na kĩthomo kĩla kĩnengae aũme na aka mwanya ũiganene. Yĩla amanyĩw'a onthe manengwe mwanya wa kwĩmanyĩsya kompiuta, ndũa sitũ nĩsĩtonya kũsũvĩa wĩw'ano waitũ na kũete maendeeo ma tekinolojia.
